This Company have acquired an exclusive grant of several million acres of land
from the Government of Mexico in the state of Tamaulipas, bordered by the state of
Texas and the Gulf of Mexico. It comprises rich agricultural, grazing and mineral
lands, immense forests of valuable timber, and opportunities for vast public enterprises
in the development and settlement of a territory almost as large as the state of Penn-

The land offered with the stock and for which negotiable certificates will be issued, will
prove a choice investment of itself while each share participates in the whole enter-
prise. Based on the lowest price of Government land in the United States the shares

GREAT DISCOVERY!

Dr. H. SMITH

-IS-

Now in possession of a new discovery in
medicine, which is purely a local anesthetic,
and acts almost instantaneously on the
surrounding tissues of the teeth. It is in
no way injurious or unpleasant to the
tissue. The manufacturers of it claim that
its equal has never been known before, and
by applying it to the sensitive or sore
teeth, they can be cleaned and filled
without pain. So all those that want all
kinds of dental work done without pain,
would better call on Dr. H. Smith. Teeth
extracted for 50 cents.

Albany Herald: There is an in-

to become insane. Why?
Because poisoned blood on

the victim becomes non-re-

TELEGRAPHIC SUMMARY.

More Lumber Monopoly.

MINNEAPOLIS, Aug. 13.—It is re-
ported here that a syndicate backed
by Berlin capital, is secretly buying
up all the available timber land in
Minnesota and Wisconsin, and
already vast tracts have been se-
cured and others are steadily being
absorbed. In some instances nearly
twice the ruling figures for pine
lands have been paid for desirable
tracts.

A Gloomy Outlook.

SIoux CITY, Iowa, Aug. 13.—Re-
ports from Northwestern Iowa and
Southern Dakota indicate a gloomy
outlook for crops. In Iowa most of
the small grains will be less than
one-third the average. In many
counties rust has ruined the wheat,
and oats in more than half the fields
will not be cut. Even otherwise
good fields have been twisted and
tangled by the recent storms. These
storms have also greatly damaged
corn.

Forfeiture of Lands.

WASHINGTON, Aug. 13.—The
house committee on public lands to-
day referred to a sub-committee the
senate bill declaring the forfeiture of
lands granted to aid in the con-
struction of wagon roads in Oregon.
The sub-committee was instructed
to consider the senate bill in con-
nection with that introduced in
the house by Hermann, which is
more extreme, and provides for a
more sweeping forfeiture in ac-
cordance with the recommenda-
tions of the Interior Department,
and report to a full committee next
Monday.

Striking Coal Miners Threaten Trouble.

WATERLOO, Ia., Aug. 13.—Trou-
ble is feared at the Lehigh coal mines,
in Webster county. There has been
a lock-out at the mines since the 1st
of May, the miners claiming that
the operators insisted on their sign-
ing a contract to waive the provi-
sions of the mining law in regard to
weighing before screening and also
to work for less than last year's wa-
ges. Nothing has been done at any
of the Lehigh mines for six weeks,
until Saturday, when a gang of im-
ported miners was set to work by
the railway companies owning one
of the mines. The strikers tried to
persuade the new men not to go to
work, but nearly all signed the re-
quired contract and went to work
this morning. If the men persist
in working it is feared a collision
will follow between them and the
strikers with disastrous results.

Yellow Jack.

JACKSONVILLE, Aug. 13.—This
morning there were eighteen cases
of yellow fever, three convalescent
and one dangerously ill. Three
new cases were reported up to 5
o'clock, and one death occurred this
forenoon. The food supply is cut
short, hotels are closed and most of
the restaurants. Many factories
will be closed, throwing many hands
out of employment. The authori-
ties fear that great privation will
fall upon the poor people deprived
of work and at the same time pre-
vented from going elsewhere. The
great discouraging feature is the
continued hot, murky weather, and
the fact that new cases develop in
all parts of the city. It is reported
that a panic prevails at St. Augus-
tine over the discovery of several
suspected cases of yellow fever.

WASHINGTON, Aug. 13.—Sur-
veyor-General Hamilton, considers
the Florida yellow fever epidemic
serious enough to demand a personal
supervision. He left yesterday for
Wacarens, Florida, which is the
first fumigating station instituted.

The great San Joaquin ranch at

wards of 100,000 acres of fine land,
has finally been sold to an eastern

Gen. Harrison, like the apostles of

garrulous "Mac" and others to Put-

rod and line, the general will pre-
pare his letter of acceptance.

A Choice Investment.

The Mexican Land and Develop-
ment Company, of No. 57 Broad-
way, New York, have acquired a
grant of public land in the state of
Tamaulipas, Mexico, covering sev-
eral million acres. It covers the
most fertile section of land on the
Continent, with a soil so rich and a
climate so perfect that three crops of
some cereals are produced in one
year. Its forests are also impassable
with the growth of rare and valu-
able woods. The standing timber
alone more than warrants the cap-
italization of the company controlling
the grant, yet in value it represents
but a fraction of the worth of the
millions of acres inexhaustible in
fertility and productiveness. A
limited amount of the Company's
stock is offered for sale at \$5 per
share. With each share is given a
certificate which entitles the holder
to five acres of land free. See ad-
vertisement elsewhere.

From Birth to the Grave

We carry with us certain physical traits,
as we do certain mental characteristics. In
some cases, psychologists have striven to
designate by generic titles certain tempera-
ments as the bilious, the nervous, the
lymphatic. The individual with a bilious
complexion is set down as bilious, often
rightly so. If the sufferer in the hue of his
skin is traceable to bile in the blood, its
presence in the wrong place instead of the
liver, will also be evinced by a run on the
tongue, pain beneath the right ribs and
through the right shoulder blade, sick
headache, constipation, flatulence and
indigestion. For the relief of this very com-
mon, but not essentially perilous com-
plaint, there is no more genial and
thorough remedy than Hostetter's Stom-
ach Bitters. It is also a beneficent
tonic and strength promoter, and a widely
esteemed remedy for and preventive of
fever and ague, rheumatism, kidney and
bladder troubles.

The Verdict Unanimous.

W. D. Sult, Druggist, Blipus,
Ind., testifies: "I can recommend
Electric Bitters as the very best
remedy. Every bottle sold has
given relief in every case. One man
took six bottles, and was cured of
Rheumatism of 10 years' standing."
Abraham Hare, druggist, Belleville,
Ohio, affirms: "The best selling
medicine I have ever handled in
my 20 years' experience, is Electric
Bitters." Thousands of others have
added their testimony, so that the
verdict is unanimous that Electric
Bitters do cure all diseases of the
Liver, Kidneys or Blood. Only a
half dollar a bottle at Dr. H. W.
Cox's Drug Store.
